## RE: Food Hygiene Inspection

Dear Parents and Carers,

Today we had a visit from Lewisham's Environmental Health team who carried out a food hygiene inspection. I write to inform you of the results.

The inspection was an unannounced full inspection looking at all records inclusive of training, safety procedures, allergies, cleanliness and quality control.

We were awarded marks within the following areas, where 0 = excellent and 25/30 = very poor:

Hygiene and Safety: 0

Structure: 0

Confidence in Management: 0

I am extremely proud to announce that we have been awarded a food hygiene rating of 5, which indicates that we are working at the highest standard in compliance with food law.

I would like to further congratulate my team on this success, especially Aunty Sher for her continued hard work and astute food hygiene practise as well as the quality of the food which is prepared.

Yours sincerely,

Mrs Dawn Day

Managing Director
